agl RALLY SA

Rally of the Heartland

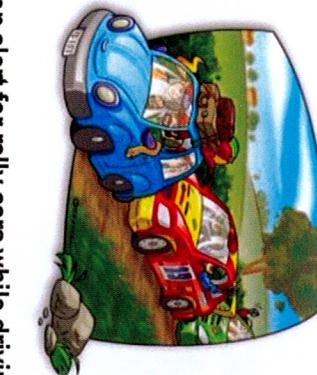

Spectator Safety

Paxton Square Service Park

Do not get too close to the stage roads. Better and safer viewing is often found from a higher vantage point.

Be on alert for rally cars while driving to Spectator Areas. When parking, make certain that you leave room for rally cars and emergency vehicles to pass unimpeded.

Always stay behind the safety tape or barriers.

Allow plenty of time to reach your selected viewing point. You should reach the viewing point by the time the first car is due to start the stage as per the itinerary.

Remain in your viewing area until the stage is finished. Do not leave until the Sweep vehicle has passed.

Do not approach dangerous areas. Follow the instructions of marshals who are there for your safety.

If you notice anything that needs immediate intervention, please inform the closest marshal or radio operator.

Do not interfere with the organisers, cooperate with them. Their primary concern is providing a safe motorsport event for all.
